

NEW POSITION WITHIN THE EU FET-OPEN PROJECT FIBSUPERPROBES (<https://www.fibsuperprobes.com/>)

A PhD or Post-doctoral position will be opened in

September 2022 within the EU project

FIB-SuperProbes (Focused Ion Beam fabrication of
superconducting scanning Probes)

*Background: Master or PhD degree in Physics or Nanotechnology

*Work focus (experimental): Superconducting materials and Focused Ion Beam

*Starting date: September to November 2022

*Send you CV and motivation letter to Prof. José María De Teresa (deteresa@unizar.es)

*Group activities: <https://nanofab-deteresa.com/>
